TOP TIPS

1. AUDITEL – ALWAYS WORKING WITH YOU TO ADD EXTRA VALUE

Another of the vital things that makes us invaluable to our clients is our great network of resources, each of which can **deliver real benefits over and above our core specialist areas**. As we get to know your business from your side of the table we can make a huge difference, especially when you need other services. By helping you source them from reliable service providers and suppliers you will be carefully guided through a selection of easily comparable options from which to choose. Many of our clients are already benefiting from introductions to such organisations, and now see us as a first port of call in fulfilling their requirements for the right organisation for the job; saves even more time and money! **Just a few examples appear below**, along with some examples about two of our specialist areas, energy and telecoms, so do ask for more, no obligation, information from your Auditel contact.

2. REDUCING ENVIRONMENTAL IMPACT – COULD YOU? SHOULD YOU?

It's nowhere near as difficult, or expensive, as you might think **if you have Auditel's help**. Going GREEN is not only the real buzz at the moment, but it can also differentiate you in a competitive marketplace, a real bonus as **more and more companies look to do business with preferred suppliers who match their own green credentials**. From green energy to recycling, from carbon footprint to energy efficiency, from water efficiency to implementation of Carbon Trust reports, your Auditel adviser is there to help.

3. TALKING OF ENERGY

Did you know Auditel can get you the right deals on electricity, gas, or LPG, and for those spending larger sums on energy we can even arrange access to the benefits of the wholesale market and manage the risk of those huge peaks we have seen in energy prices? Makes great sense in forward planning and budgeting. **Why not fix up a no obligation meeting to discuss options?**

4. MAKING A KILLING?

No, seriously, are you aware that the Corporate Manslaughter and Corporate Homicide Act was passed into law in July 2007? Directors and business owners alike can face the full weight of the criminal law in the event of an accident where culpable negligence is involved. **Why not get peace of mind?** Check out your health & safety position, and your general risk. Both opportunities are available through your Auditel contact, who can bring in top drawer specialists in these fields.

5. INSURANCES

Our clients are now making **great premium savings for improved cover** through our Top Ten insurance broker. They've even done Auditel's important insurance, so we're more than happy with the way they help our clients. Whatever your insurance, or benefits needs we can point you in the right direction.

6. COMMERCIAL BUILDINGS?

All commercial buildings sold or rented out will soon need an **Energy Performance Certificate** – many larger ones will need a **Display Energy Certificate**. Now's the time to get things right and maximise your energy efficiency, **just ask Auditel**.

7. LOOKING FOR NEW EQUIPMENT?

A standard part our service is that **Auditel can plan, help specify and source the right equipment, be it for energy, communications, as well as many other types** – let the experts sit on your side of the fence and help you get the right kit for the job, at the right price – just ask! We could save you a lot of time and effort and get you operational quicker.

8. FED UP WITH THE MOBILES MAZE?

Or the telecoms tangle? They're our bread and butter, and Auditel's no risk service can get you organised in the best way for **your** needs – and save you time and money!

Got another problem? Just ask your Auditel contact – the chances are you can be pointed in the right direction, and save even more time and money in the process!
